Hutcheson Horticultural Company

Spring 2005

Vol. 1 Issue 2

## Letter From President

Spring is here! After a wet and slow winter, we are excited about getting back into the spring of things. As basketball ends, baseball begins, temperatures start rising and plants start blooming, our phone starts ringing. Looks like 2006 is going to be another great year, as we have a lot of new landscape projects beginning. I'm happy to say that our design / build and hardscape division continues to grow, giving us more and more opportunities to enhance peoples lives by improving their outdoor environments. Hutcheson Horticultural Company is strong and continues to grow thanks to all of the efforts from our employees and loyalty from our clients. Its our goal to completely satisfy all of our customers. Your feedback helps and is welcomed!

Sincerely,

Mark Hutcheson

## New Website Launched

Hot off the design table, the new [www.HutchHort.com](http://www.HutchHort.com) is packed full of useful tools and features for our customers. Not only will you be dazzled by our much improved branding and site layout, you can sign up for an online version of our quarterly newsletter, browse and search our database, learn valuable landscaping tips, request a free consultation directly from our experts and you can also see pictures of all different jobs that we have completed! So what are you waiting for, log on and check us out! We are just a click away from making your dream landscape a reality!

## Emerson's Corner

Despite their short life cycle annuals provide colorful flowers for months at a time, while most perennials bloom for only a few weeks. For an impact seasonal color bed, plant annuals and perennials together. Check out our website for ideas!

## Plants of the Season

Azaleas are a great shrub to have in the spring time! They come in a variety of colors.

Veronica is a great perennial to have in your garden this spring! Veronica comes in different varieties and sizes! There is also an evergreen variety. Check out our website, under the plant gallery, for more information on this great perennial!

Knock Out Rose is another great shrub to have. With its brilliant pink blooms, this shrub is a true show stopper! It works well as an accent plant in a garden!

For the cost of a pizza, you can invest in plants that will grow and provide years of enjoyment for the whole family! Visit [www.hutchhort.com](http://www.hutchhort.com)!

## What A Water Fall

We were presented with a design request for the backyard slope of the Witter residence in Woodstock, GA. The Witter Family wanted a big waterfall on their existing slope, and that's exactly what they got! The waterfall at the Witter Residence is an eye catcher. This huge waterfall has a mix of different types of stone, and a great sound as well! The Witter Family is thrilled to have their new waterfall! For more pictures go to [www.hutchhort.com](http://www.hutchhort.com)!
