### Outdoor Rooms

As the warmer weather approaches, we are receiving numerous requests for outdoor rooms. This can include anything from fieldstone or paver patios, stackstone walls, stone fireplaces, to large or small water features. The variety of textures and sounds can add ambience to your resting ground. With the addition of pots billowing with color, overhead arbors, and comfortable seating we can make this space enjoyable to all. No matter your budget, we can provide you with a plan that fits your family's needs. Please visit our website to see some of the outdoor rooms we have recently completed!

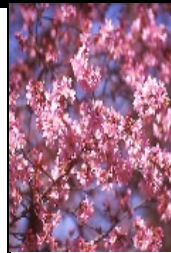

### Did You Know?

- The spring season is a great time to install your perennials!
- After April 15th, you can begin planting spring annuals. (weather permitting)
- The Hutcheson Horticultural Company website [www.HutchHort.com](http://www.HutchHort.com) has a plant gallery where you can view a variety of plant pictures and their landscape requirements.
- Inspect shrubs, trees, and turf for insect and disease.

### Spring Care Tips

The spring season is a great time of the year! Plants are beginning to bloom and the weather is getting warmer! In the spring there are some things that you can do to help your plants and turf. Fertilize your azaleas and camellias after they bloom. Apply fertilizer to your warm season turf. After April 15th, weather permitting, it is a great time to begin the installation of your seasonal color beds. There are many different annuals to choose from. Make a seasonal color bed that stands out! Have a taller annual in the middle of the bed with medium to low annuals around it! What a statement that makes!

### Pats on the Back
